1 HOW THE GAME WORKS

Wayworlds is a percentile (d100) role-playing game. Everything you attempt comes down to a single question: can you roll equal to or under your Target %?

THE CORE ROLL — ROLL D100, BEAT YOUR TARGET %

UNIVERSAL D100 ATTRIBUTE BASELINE & PAIR SHIFTING (BASELINE: 50)

`Target % = ceil(Base Stat / 2) + (Skill Level x 10) + Lineage & Gear Modifiers`

All characters and sentient NPCs possess 4 paired percentile ability scores (1–100) starting at a flat 50 baseline before Lineage modifications. Attributes directly determine skill base success chances, physical thresholds, and resource pools.

Reading the dice: a d100 roll uses two ten-sided dice, one for the tens and one for the ones. A roll equal to or under your **Target %** succeeds. On attack rolls, **doubles** (11, 22, 33 …) at or under your target score a **Critical Hit**; doubles over your target, or a roll of **99–00**, are a **Fumble**.

YOUR DICE — WHAT YOU WILL ROLL

DICE	USED FOR
`d100`	Skill checks, attacks and casting. Success when the roll is equal to or under your Target %.
`1d10 + IM`	Initiative at the start of a combat. IM is your Initiative Modifier, taken from Reflex Speed.
`Nd10`	Damage and spell magnitude. Weapons and spells list how many d10 to roll, for example a Longsword at 2d10.
`1d10/2`	The smallest damage and effect dice: roll a d10 and halve it. Used by Tier 0 spells and unarmed strikes.

YOUR POOLS — STAMINA & ESSENCE

POOL	MAXIMUM	WHAT IT DOES
Stamina (STA)	`Max = Adjusted STA Score`	Physical health, endurance, and fortitude. When reduced to 0, a character falls unconscious or suffers mortal trauma. Also spent as fuel for Blood Magic or Overchanneling.
Essence (ESS)	`Max = Highest of adjusted INT, WIL, HIST/REL, or STA (for Ki)`	The supernatural energy and focus pool used to cast spells, channel Ki, or manifest traditions. Multi-magic skilled players can choose the highest attribute among their magic skills to fuel their ESSENCE/MANA (e.g., Necromancy and Demonology uses the higher of the two). Standard cast cost is strictly Cast Tier x 2 ESS (0 for Cantrips/Minor moves). Fully restored upon a Full Rest.

A ROUND OF PLAY

TAKING YOUR TURN

STEP	WHAT HAPPENS
1	**Initiative.** Roll 1d10 + IM (floor(RS / 10)). Highest acts first; ties go to higher RS.
2	**First Spotlight: Any 2 Actions.** Valid actions are: Attack, Move, Spell, Shield, Move, Dodge, Disengage, Utilize, Hide.
3	**Second Spotlight: Any 2 Actions.** Valid actions are: Attack, Move, Spell, Shield, Move, Dodge, Disengage, Utilize, Hide.
